NUMBER 202

CHILEAN PASSENGER LINER SINKS, 240 DROWNED

OVERLADEN SHIP LOSES BATTLE WITH
HEAVY SEA; ALL ON BOARD ARE LOST

SANTIAGO, Chile, August 29.—Two hundred and forty persons were drowned today when the Chilean passenger steamer Itala sank off the Choros Islands near Coquimbo. It is believed that the sinking of the ship was due to its overladen condition in the heavy seas. It is believed that all the passengers and members of the crew were lost, according to a report from the steamer Chapacuco to the steamship offices here.

TEST OF RAILROADS' ABILITY TO MOVE COAL IS NEARING

Washington, D. C., Aug. 29.—Warned by Secretary of Commerce Hoover that the railroads cannot move the country's requirements of 13,000,000 tons of coal weekly, plans were started for insuring domestic consumers against suffering and industries against shut-downs. Due to the exhaustion of coal reserves, the country is now on a hand to mouth basis. Domestic and industrial requirements can now be taken care of as far as the production of coal is concerned, but the serious feature at this time is the uncertainty as to whether the railroads can haul sufficient coal to prevent suffering and tie-up of business. The test will come within the next two weeks, Hoover said. While he refused to discuss what action the Federal Government will take, it was indicated in addition to giving coal every possible priority on the railroads a coal zoning system may be established by which no coal will be shipped from one State into another coal-producing State.

HARDING WANTS THE AUTHORITY TO ACT IF ACTION IS NEEDED

Washington, D. C., Aug. 29.—President Harding wants legislation passed before Congress adjourns or recesses giving him power to seize the anthracite mines and railroads in order that he may have adequate authority to protect public interests, it was officially stated at the White House today. It was emphasized that the President had no thought of taking over any mines or railroads in the near future and that no such action would be taken except as a last resort.

"HY" JOHNSON IS UP FOR RENOMINATION AT PRIMARY TODAY

San Francisco, Cal., Aug. 29.—California went to the polls today to select candidates for the Senate, and the State and county officials. Chief interest centered in the fight between Senator Hiram Johnson and Charles C. Moore for the nomination for the Senate. Moore and his supporters vehemently attacked Johnson for his stand on international matters and as a side issue attempted to show that he was a representative and mouthpiece of William Randolph Hearst. Johnson answered them with the slogan that it is the same old gang trying to keep the people from controlling the Government.

BLUE BALL MINER KILLED BY ROCK FALL

William McKeown, son of the late James McKeown, and a former resident of Penn township and Grampian was instantly killed by a fall of rock while at work in a coal mine owned by Philipsburg people near Blue Ball about 2 o'clock yesterday afternoon. The deceased was aged 52 years and is survived by two sons, residing at Blue Ball. The funeral will be held from his late home at Blue Ball Thursday, with interment at Philipsburg.

FIND "DEATH POOL" IN MISSOURI RIVER

Bonus Measure Will Be Put Through Senate At Evening Session

Washington, D. C., Aug. 29.—Another delay on the final vote on the Bonus Bill was in sight as the Senate resumed discussion of the measure today. A strenuous effort will be made to push it through, however, even if a night session of the Senate is necessary, so as to get it out of the way for pending strike legislation. The gag rule on discussion of amendments was in effect today but there was no limit of time the Senators could talk on the Bill. The time allowed for discussion of amendments was limited to twenty minutes.

Boal Troop To Hold Big Reunion Saturday And Sunday, Sept. 2 And 3

A reunion of the Boal Troop veterans of the world war will be held Saturday and Sunday, Sept. 2nd and 3rd, at Boalsburg, Pa. The Boal troop was organized in 1916 for service on the Mexican border, where it served as machine gun troop, First Pennsylvania Cavalry. In 1917 this troop was called into service on July 15th, training at Boalsburg, Pa., and Camp Hancock, Augusta, Ga., as M. G. T. First Pennsylvania Cavalry. At Camp Hancock on the disbanding of the cavalry regiment, they were transferred to division headquarters and designated Co. A, 107th M. G. Bn., of the division machine gun battalion. With this designation they served with the 28th Division at Camp Hancock and over seas from April, 1918 to May, 1919 as members of the A. S. F.

Mustered out of Federal service May 21st, 1919. Labor Day, 1919, dedicated a monument to their fallen comrades at Boalsburg, Pa.

May 14, 1922, founded veterans' organization known as Boal Machine Gun Troop, for the purpose of promoting comradeship and help one another in battles of civil life. Also to hold an annual reunion. Officers of the organization are: Honorary president, Lt. Col. Theo. D. Boal, Boalsburg; president, W. W. Barratt, Clearfield, Pa.; secretary, D. W. Hummel, Clearfield, Pa.; treasurer, R. K. Jacobs, Philipsburg, Pa. Vice presidents and members of the executive committee elected from the following towns have members in the troop: Bellefonte, State College, Lock Haven, Milroy, Altoona, and Clearfield, Pa.

Starting with all Pennsylvania boys, this outfit had replacements from nearly all States in the Union and this being the first official reunion men from all over the country are expected to attend.

Program for two days includes athletic contests, shooting contests, reunion and business meeting, dance. (Continued on Page 4)

LABOR BOARD WILL STICK TO LAW IN MAKING ALL AWARDS

Chicago, Ill., Aug. 29.—Maintenance of way men lost the first skirmish in their fight for increased wages when the Railroad Labor Board today denied the living wage as the basis for fixing a new wage scale. The Board will not go beyond the Transportation Act the decision declared. If we find that the living wage is a just and reasonable wage as prescribed by the law we will adopt it. It would be superfluous to announce in advance the theory on which the wage will be fixed. We will give every consideration to the arguments of the maintenance men but we must comply with the law, the decision stated.

DEATH WINNING A DESPERATE BATTLE IN MINE ACCIDENT

Practically No Hope Is Entertained that Hard Working Rescue Crews Can Save Victims.

43 MEN ENTOMBED

Argonaut Gold Mine, Jackson, Cal., Aug. 29.—Death was winning a desperate battle here today for the lives of 43 men entombed nearly a mile below the surface. Dawn lit up the pale faces of the worried rescue crews who had toiled throughout the night, but brought little hope that the men could be saved.

Seated on cars near the opening of the shaft, a pathetic little group of the wives and families of the imprisoned men watched proceedings which continually grew more hopeless. It was discovered that the men had struggled to a level where they were able to get a little more air, but it was deemed impossible to save them.

Freeport Thick Vein Operators Capitulate On Cleveland Scale

The Coal Operators' Association of the Thick Vein Seam of the Freeport district capitulated to the United Mine Workers of America yesterday, signing the Cleveland joint conference agreement of August 15, and bringing to a close the 150-day strike in the mines of these operators.

A. R. Budd of the Diamond Coal and Coke Company, was chairman of the association committee that negotiated this settlement with P. T. Fagan, acting president, and William Hargest, secretary treasurer of District No. 5, representing the miners.

The total annual tonnage involved approximates 3,700,000 tons figured upon production of 1920. About 4,500 union miners will return to work in this district, which is virtually all within Allegheny county.

Opening Of Mines Indicates Steel Production Normal

Pittsburgh, Pa., Aug. 28.—Normal production of steel within a month was predicted here today following reopening of coal mines owned by steel interests in the Pittsburgh district. Steel plants took on more men with assurances of steady supplies of coal and coke. Blast and open-hearth furnaces, the barometers of the steel industry, were to resume this week. Jones & Laughlin and other independents reopened their mines at Vestaburg, Dunkirk and Ellsworth, signing the Cleveland conference agreement. Nearly 7000 miners returned to work. Representatives of the United States Steel Corp. here reported output of Frick coke and coke plants in non-union Connellsville fields was increasing steadily.

Emil Seelinger, one of the substantial citizens of Bigler township, is a juror this week.

Whence Alfalfa Came. Alfalfa is really a Spanish name for the Medicago Sativa, to give it its full botanical name. It is also known as Spanish trefol. It may be termed one of the old timers on this continent as it was brought over to this country by the early Spaniards. It took very kindly to its new home and now is known and valued as fodder in many parts of Canada and the United States.

Pittsburg Salesman Dies Suddenly At Local Inn Last Evening At Eight

T. F. Johnston, of Crafton, Pa., aged about 60 years, sales manager for the Federal Enameling and Stamping Company, of Pittsburgh, dropped dead in his room at the Hotel Jordan about 8:30 o'clock last evening.

Mr. Johnston registered at the Jordan on Friday last. He was about the hotel Saturday and Sunday, but Monday morning he called the office about 9:30 o'clock and said he was sick and would like to have a doctor sent up to his room.

Dr. Yeane was summoned and found Mr. Johnston suffering from heart trouble and gave him some medicine. At noon Proprietor Jordan went to the room and Mr. Johnston told him he was feeling much better. Later in the day he arose and coming down stairs ate a light lunch.

About 7 o'clock Mr. Johnston went up to Dr. Yeane's office and the doctor found him very weak and told him he should be in bed. Johnston returned to the hotel and going to his room retired for the evening.

About 8:30 o'clock a guest of the hotel occupying an adjoining room heard a noise as of some one falling heavily to the floor in Mr. Johnston's room and at once notified the office. The clerk went to the door of the room, which he found locked and upon opening it, Mr. Johnston was found lying on the floor dead.

He was clad in his pajamas and had evidently retired for the night, and had apparently got up and approached the stove in his room to get a drink of water when stricken and fell to the floor dead.

Dr. Yeane was summoned and pronounced the man dead from an attack of heart trouble and the remains were removed to the Leary undertaking parlors and prepared for burial.

PICNIC, HIKE AND CELEBRATION TO CLOSE PLAYGROUND

At five o'clock Wednesday evening there will be a picnic on the playground back of the High School for all the littles under nine. Mothers, PLEASE not only note this but see that your infants have a bit of lunch in a basket. This is the last week you know, and must be celebrated.

All Miss Beth's playground children over nine, or at least those who are husky enough for a good long hike, be ready for one Thursday afternoon at one o'clock at the High School playground. Bring your own supper—cooked or uncooked—and a bathing suit if the powers permit. There will be a campfire and if bacon or weiners are on the menu—very good. This isn't going to be a two or three block stroll, so don't come if you aren't good for a regular tramp.

WOMAN IS FOUND! CLINE DEFENSE IS BEING SHATTERED

Edgewater, N. J., Aug. 29.—Miss Alice Thornton, the blonde who was being sought in connection with the killing of John Bergen, was today questioned by the authorities and her story backed up by the theory of the prosecution that Bergen was shot without a chance for his life. According to prosecutor A. C. Hart, Miss Thornton said she did not hear Cline propose to Bergen that the two go up into the attic and fight it out after Bergen had admitted intimacy with Mrs. Cline.

FIND TWO VICTIMS, EACH LASHED TO STEERING WHEEL OF AUTOMOBILES

KANSAS CITY, Missouri, August 29.—The swirling, muddy depths of the Missouri River were expected to reveal the body of a man lashed to the wheel of a motor car which lies at the bottom of an eighteen foot eddy at Nearman, near here. Wyandotte County officials assert that at least a dozen other automobiles are on the river bottom at this point and they fear when they are brought to the surface that the bodies of other victims will also be recovered.

FIND SECOND VICTIM.

Kansas City, Missouri, August 29.—A second body has been discovered in the "bandits' grave yard" of sunken automobiles at Nearman, under-sheriff Kepler, of Wyandotte County, telephoned police here today. Both bodies were lashed to the steering wheels of submerged machines. Divers and workmen working to raise the automobiles said to be on the river bottom discovered the second corpse, according to Kepler. One of the dead men was thought to be white and the other a negro. It is thought by those engaged in the work that there are at least two dead men and probably more. Kepler discounted the possibility that two different crews might have seen the same body. A crowd of curious spectators numbering about 2,000 lined the river banks near the submerged cars.

DODGE TRUCK WITH LOAD OF MEAT HITS TELEPHONE POLE

A Dodge truck loaded with fresh meat from the Philipsburg Beef Company and driven by a young man named Rougeux, from Frenchville, collided with a telephone pole on the Woodland-Clearfield road, just this side of the watering trough at Barrett last yesterday afternoon.

Rougeux and a companion had been to Philipsburg for a load of meat and were returning home via Clearfield when the accident occurred. The truck had just rounded the curve at the foot of Barrett hill when something went wrong with the steering gear, and before the driver could stop his machine it piled head-on into the telephone pole. The truck was badly damaged but neither of the occupants was hurt.

CAUGHT IN ROCK FALL

Clair Young, aged about 24 years, was caught by a fall of rock in the A. E. Woolridge mine near Woodland about 10 o'clock and quite badly injured.

The rock struck the young man on the back. Dr. Shively ministered to his injuries and had him brought to the Clearfield Hospital where the extent of his injuries will be determined by an X-ray examination.

CURWENSVILLE MISS CHAMPION EEL FISHER OF CENTRAL PENNSYLVANIA

Miss Blanche Kelly, of Curwensville, is the champion fisherman or fisherwoman—if you want to get technical—in Clearfield county and was awarded the cheese-handled barlow by unanimous consent after an achievement which she pulled off this morning. Miss Kelly was one of a party of Curwensville young ladies who went down to Anderson creek to have their pinky toes in the cooling waters of that mountain stream. When they reached the bank of the stream the front rank of girls refused positively to risk a single toe in the water when they saw, what was generally accepted as a huge water snake disporting itself in a turgid pool just off shore. Miss Kelly comes of a family of hunters and fishermen and "had to be shown" before she would run away from any thing that swam in the waters of An-

derson creek. While the other girls kept away from the Creek Miss Kelly pressed forward to get a glimpse of the monster which had frightened her companions.

What she saw didn't appear to scare her a little bit and she hopped right into that pool after the "water snake" with the screams of her fair companions ringing in her ears. She went right after the "snake" and soon ran it into a pocket and like the expert fisherman she is Miss Kelly got her hands full of wet sand and after considerable effort succeeded in throwing a 3-1/2 foot eel out onto the bank, and while the other girls beat a hasty retreat the plucky young lady proceeded to put her catch out of business. A whack on the head with a vanity box soon put the eel out of business and the fair fisherlady soon was on her way up town triumphantly carrying her catch.

ODDS AND ENDS AND THINGS

By J. D. C.

The last toll gate and toll bridge in Clearfield county has long since been wiped off the map by the progress of the times, but a lot of people in Clearfield will remember the day when one had to pay for getting in or out of the town on any one of three separate routes. The toll gate and toll bridge was the pioneers' way of paying for public improvements.

In moving his office in the Betts homestead recently John M. Bain unearthed the old minute book of the Lower Bridge Co., the organization which erected the Lower or Second street bridge, which was maintained as a toll bridge as late as 1880, when the stockholders sold it to the County Commissioners and it became a free county bridge.

The first entry in the book was made under date of June 1, 1868, and on Saturday, September 2nd. The speakers will be Hon. Singleton Bell, Col. Fred Kerr, Rev. E. Roy Hauser, J. Frank Snyder, A. R. Chase and W. A. Hargerty, Esqs., and Hon. Joseph E. Phillips. Everybody invited to attend. 8/22-25-29 9/1

Great Healer For Sores, Cuts, Scalds, Burns and Bruises

Great Antiseptic Ointment Called San Cura that Your Local Druggist Sells on Money-back Plan.

"Arm badly scalded with steam," writes Gilbert Hard of Rinard's Mills, Ohio; "San Cura Ointment relieved the pain at once and arm healed rapidly. It is a wonderful ointment."

Here's another: Ellis W. Frankenstein, Titusville, Pa., broke his leg; was in bed six months; discharged from hospital as incurable; was five years on crutches, while opening in leg continued to discharge pus; suffered terrible pains; San Cura Ointment drew out poisonous pus and many pieces of bone; now perfectly healthy; sore healed, and weight increased from 86 to 121 pounds.

San Cura Ointment is such a marvelous healing antiseptic ointment that it is sold on money-back plan.

It relieves itching skin, tetter, eczema, salt rheum, old running and fever sores, ulcers, boils, carbuncles, sore nipples, piles, frost-bite, chilblains, catarrh and chapped skin.

San Cura Ointment—35c, 65c and \$1.25 at all Drug Stores.

LEGAL

RESOLUTIONS OF RESPECT.
Whereas: Our Friend and Brother, Morris John Owens, has been called from our Council to meet in the Great Council above; and

Whereas: We, the Members of the Clearfield Council, No. 281, O. U. A. M., do feel keenly the loss of this exemplary brother; and

Whereas: We deeply sympathize with the bereaved family;

Resolved, that all persons hauling over said bridge, whether stockholder or having the bridge by the year pay for all loads hauled over said bridge by the trip at the prices above mentioned. And all loads so hauled be settled for at the end of each month.

Resolved, that the certificate issued to Richard Shaw, Jr., for the use of the Grist Mill shall be null and void from this date.

Resolved, that thirty days shall be given to all persons in arrears for toll and all toll outstanding after that date shall be placed in the hands of the Justice of the Peace for collection, and that the same length of time be given to persons intending to take out their certificate for 1876, and all certificates not lifted in that time. The gate keeper is instructed to shut the gate on persons so crossing or they shall pay their toll by the trip. And that notice be given in the paper of the above resolution.

Mention James Irwin was elected President and W. M. Shaw was elected Sec'y and Treasurer.

On motion adjourned.

W. M. SHAW, Secy
(To Be Continued Tomorrow.)

ATTENDING NEPHEW'S FUNERAL

Mr. and Mrs. Edward L. Boyle, of Dorey street, left today for Pittsburg, where they were called to attend the funeral of James Armstrong, their nephew, who dropped dead on the streets at Pittsburg yesterday.

Young Armstrong, who was a son of the late William Armstrong of Philipsburg and Patton, was attending U. S. vocational training school at the time of his death. He served with the A. E. F. and was seriously gassed during the war and his sudden death was directly attributable to that fact.

FARM FOR SALE

I offer the following farm and its contents for sale at a real bargain to a quick buyer. Just the farm for any man to make a good investment and start in farming.

Farm known as the James Norman farm, located in Lawrence township near O'Shanter, Pa. Five minute walk to New York Central station.

Acreage, 85.
50 acres cleared in good state of cultivation.

35 acres in woodland estimated as follows:
30,000 props.
13,000 motor ties.
9,000 feet hemlock.
16,000 feet of pine.
10,000 feet of hardwood.
200 Railroad ties.

This farm is underlaid with three seams of coal, namely B, C, and C Prime good workable seams.

Good eight-room house practically new. Good barn forty feet square. Two good work horses that weigh 1,300 each. Two good milk cows. Four head of young cattle. Seventy-five chickens, two hogs, wagon and harness, corn worker, plough, drop reaper, sleds and mowing machine, and various other implements too numerous to mention. Twelve tons of timothy and clover hay in the barn. Two hundred and twenty dozen of oats, five acres of good corn. Five and one-half of good buckwheat. Three acres of good wheat, one and one-half acres of potatoes.

Good peach orchard on the farm. Good apple orchard on the farm. Good spring water on the farm. Running water in the house. House is illuminated by acetylene gas.

For particulars communicate by letter or by phone, Room 6, Penn. Public Service Building, both phones: H. & C. 492, Bell 194, Clearfield, Pa.

Isaac H. Robinson
8/15-tf-ch

signed by J. Blake Walters, Secretary. It recites that on this date "Oscar B. Merrill, W. D. Bigler and J. Blake Walters, the original incorporators named in the Act of Assembly, approved the 13th of April, 1868, incorporating the Lower Bridge Company met at the office of Wallace Bigler & Fielding and in accordance with the provisions of said Act of Assembly selected Wm. W. Betts and Abe Humphrey to act with them as Directors of the said Company.

On June 9th, 1868, a contract for the piers for the bridge was made with Michael Hubert, who was to do the stone work for \$1,650 per perch.

June 16, 1868, O. B. Merrill was elected President; J. Blake Walters, Secretary and W. D. Bigler, Treasurer, and bids for the woodwork asked for.

The stone work was completed and settlement made with the contractor on November 10, 1868, he being allowed \$296.90 for extras. The contract for the woodwork was given to W. H. Miller for \$2850 on April 21, 1869, he to furnish the "iron, nails and false work." He had his work completed October 29, 1869.

On May 11, 1870, the books showed the outstanding indebtedness of the bridge company to be \$7557.20 and an issue of bonds, not to exceed \$10,000 and bearing not more than 10 per cent interest was authorized to take up same.

On April 25, 1875, the minutes recorded the following action.

"A meeting of the Directors and stockholders of the Lower Bridge Company was held at the office of Wallace & Krebs the following were present: James Irwin, Richard Shaw, Wm. L. Rishel, J. S. Schryver, R. A. Green, W. M. Shaw and A. P. Moore.

When the following board of Directors were elected: James Irwin, Richard Shaw, W. D. Bigler, J. C. Schryver and Wm. L. Rishel. On Motion resolved that all persons having paid up stock in the Bridge shall pay 5 cents for all loads hauled on said bridge and have the privilege of passing back on their stock. And all persons taking the bridge by the year shall pay 8 cents per load for all loads so hauled over said bridge and have the privilege of passing back free. And all persons hauling over said Bridge that have no stock in said bridge and do not take the bridge by the year shall pay the sum of ten cents per load, each way.

Resolved that any person hauling over said bridge, whether stockholder or having the bridge by the year pay for all loads hauled over said bridge by the trip at the prices above mentioned. And all loads so hauled be settled for at the end of each month.

Resolved, that the certificate issued to Richard Shaw, Jr., for the use of the Grist Mill shall be null and void from this date.

Resolved, that thirty days shall be given to all persons in arrears for toll and all toll outstanding after that date shall be placed in the hands of the Justice of the Peace for collection, and that the same length of time be given to persons intending to take out their certificate for 1876, and all certificates not lifted in that time. The gate keeper is instructed to shut the gate on persons so crossing or they shall pay their toll by the trip. And that notice be given in the paper of the above resolution.

Mention James Irwin was elected President and W. M. Shaw was elected Sec'y and Treasurer.

On motion adjourned.

ATTENDING NEPHEW'S FUNERAL

Mr. and Mrs. Edward L. Boyle, of Dorey street, left today for Pittsburg, where they were called to attend the funeral of James Armstrong, their nephew, who dropped dead on the streets at Pittsburg yesterday.

Young Armstrong, who was a son of the late William Armstrong of Philipsburg and Patton, was attending U. S. vocational training school at the time of his death. He served with the A. E. F. and was seriously gassed during the war and his sudden death was directly attributable to that fact.

signed by J. Blake Walters, Secretary. It recites that on this date "Oscar B. Merrill, W. D. Bigler and J. Blake Walters, the original incorporators named in the Act of Assembly, approved the 13th of April, 1868, incorporating the Lower Bridge Company met at the office of Wallace Bigler & Fielding and in accordance with the provisions of said Act of Assembly selected Wm. W. Betts and Abe Humphrey to act with them as Directors of the said Company.

On June 9th, 1868, a contract for the piers for the bridge was made with Michael Hubert, who was to do the stone work for \$1,650 per perch.

June 16, 1868, O. B. Merrill was elected President; J. Blake Walters, Secretary and W. D. Bigler, Treasurer, and bids for the woodwork asked for.

The stone work was completed and settlement made with the contractor on November 10, 1868, he being allowed \$296.90 for extras. The contract for the woodwork was given to W. H. Miller for \$2850 on April 21, 1869, he to furnish the "iron, nails and false work." He had his work completed October 29, 1869.

On May 11, 1870, the books showed the outstanding indebtedness of the bridge company to be \$7557.20 and an issue of bonds, not to exceed \$10,000 and bearing not more than 10 per cent interest was authorized to take up same.

On April 25, 1875, the minutes recorded the following action.

"A meeting of the Directors and stockholders of the Lower Bridge Company was held at the office of Wallace & Krebs the following were present: James Irwin, Richard Shaw, Wm. L. Rishel, J. S. Schryver, R. A. Green, W. M. Shaw and A. P. Moore.

When the following board of Directors were elected: James Irwin, Richard Shaw, W. D. Bigler, J. C. Schryver and Wm. L. Rishel. On Motion resolved that all persons having paid up stock in the Bridge shall pay 5 cents for all loads hauled on said bridge and have the privilege of passing back on their stock. And all persons taking the bridge by the year shall pay 8 cents per load for all loads so hauled over said bridge and have the privilege of passing back free. And all persons hauling over said Bridge that have no stock in said bridge and do not take the bridge by the year shall pay the sum of ten cents per load, each way.

Resolved that any person hauling over said bridge, whether stockholder or having the bridge by the year pay for all loads hauled over said bridge by the trip at the prices above mentioned. And all loads so hauled be settled for at the end of each month.

Resolved, that the certificate issued to Richard Shaw, Jr., for the use of the Grist Mill shall be null and void from this date.

Resolved, that thirty days shall be given to all persons in arrears for toll and all toll outstanding after that date shall be placed in the hands of the Justice of the Peace for collection, and that the same length of time be given to persons intending to take out their certificate for 1876, and all certificates not lifted in that time. Author's Sound Advice.

It is a familiar custom for an author of some merit but little fame to get a more celebrated colleague to introduce his book. The custom is sometimes run into the ground. Such an author applied to Mr. Remond Shaw for a picture. Shaw replied: "Swim on your own; don't trust corks."

When Criminals Were Branded.
Up to the year 1820, all criminals in England were branded, as well as gypsies and vagabonds, but after that year only deserters from the army and soldiers who were notoriously bad characters were so marked.

Great Power Given Congress.
The Constitution gives congress power to raise and support armies. Power to support an army includes everything connected with arming, clothing, equipping, mobilizing, transporting and feeding it.

Take Another Path of Thought.
When you find yourself beginning to think things that you know perfectly well are unkind and uncharitable—don't. Pull yourself up short and resolutely turn your thoughts to other and pleasanter things.—Grace H. Dodge.

Rule That Must Be Observed.
In vain do we talk of progress and superior light if we have not yet learned the elementary rules by which men of sense, having a certain end in view, adapt their means to the attainment of that end.—W. B. Gladstone.

Hay Fever Relief

May be Had Right at Home

WHILE there is no certain "cure" for hay fever, Vicks in many cases will give relief. As a preventive, keep Vicks up the nostrils, especially when exposed to dust.

To clear the head, melt Vicks in a spoon or tea kettle and inhale the vapors.

For relief during a night attack, rub Vicks over the spinal column from the neck to the hips. Then apply over throat and chest and cover with hot flannel cloth.

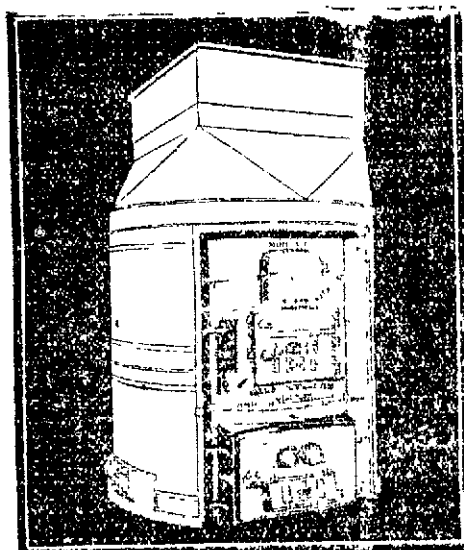

Leave the bed covering arranged in the form of a tunnel so that the vapors arising may be freely inhaled.

The Susquehanna College of Music Opens Monday

The Seventeenth Year of This Musical Institution Opens

On Monday, September Fourth. Pupils Should Register Now.

The pupils of the Susquehanna College of Music have gone forth into the musical world of the country and have made their mark. This is a brilliant proof that the methods used and that the thoroughness of instruction place the institution among the leading institutions of the country.

Voice

The pupil is taken by easy degrees through the instruction of tone formation and finally finishes with the study of the great singing parts of the operas and oratorios. Not only is tonal quality brought out but stress is laid on clarity of enunciation.

Piano

We take pupils in this department from five years of age up. They are started with the easy exercises that will train their little fingers and they are taught the various things that instill not only an ability to play but a thorough understanding of music and a love therefor that will make for interest in their studies.

Violin, Violoncello, Orchestral Instruments

Pupils are taken into this department and taught the origin of the instruments and their technique. They are prepared for orchestra playing, concert work and parlor music. Every instrument used in an orchestra is taught here by instructors that teach by actual demonstration.

Cornet, Trombone, All Band Instruments

All band instruments, brass, reeds and the like are taught by instructors who have had many years experience in the work. The pupil is brought to efficiency in solo and ensemble and given a broad musicianship that enables them to accept positions in the best organizations of the country.

PUPILS SHOULD REGISTER NOW.

In order to get the lesson hours that will best suit your time, it is imperative for pupils to register early. The office of the principal is open every day and arrangements can be made for your entrance.

It is not unlikely that part of the lawlessness that is so prevalent throughout the United States may be traced to the attitude which boys and youths have been permitted to assume toward officers of the law. It is no longer an uncommon thing to hear policemen spoken of disrespectfully.

It is not claimed that the highest type of men can always be secured for places on the police force, but as a rule they are men who are interested in the welfare of the people as far as they are able to protect them and otherwise serve them. They are representatives of the law, and as such they are respected by law-abiding persons.

There is a disposition on the part of certain classes to "talk back" at a policeman or officer of the law—to make slurring remarks to others regarding them, or to commit acts of a taunting character. It is a practice that should be rendered unpopular by more severe penalties.

Persons of all ages should be impressed with the fact that policemen are employed to protect the interests of all by the enforcement of the regulations made for the welfare of the public. If discourtesy is shown to officers of the law the offenders should be taught a lesson that will be good for themselves and for others similarly disposed.

Consolation.

Little Joe's mother was the proud possessor of a new automobile, which she was burning to run with some difficulty. Watching her efforts to back the car out of the garage one day, Joe consolingly said, "Anyway, mother, you know how to work the self-starter fine, don't you?"

Had Felt Like Doing the Same.

"What was the gunpowder plot?" "Some Englishmen wanted to blow up their whole legislative body." "Well, I couldn't go that far. Still, I understand their point of view,"—Louisville Courier-Journal.

Right-Sightedness.

The assertion comes from France that the majority of people are not only right-handed but also right-sighted. By this is meant that most persons see better with the right eye than with the left and habitually, though unconsciously, employ it more. Some persons, however, make greater use of the left eye than of the right, and accordingly are said to be "left-eyed."

STETSON HAT EXHIBITION EXTRAORDINARY.

Interesting and Educational
Showing Different Stages in Hat-Making
One of the Greatest Hat Displays Ever Made

If you have never been through a hat factory you have no idea how interesting, how much there is to the making of a hat.

This wonderful exhibit presents the fourteen operations in the making of a Soft Hat—and the sixteen operations on a Stiff Hat. It shows how the elegant imported furs look before and after they are treated, and how the cut fur is made into felt—how a hat locks before it is shrunk, and afterwards—how it is blocked and shaped—the whole process from "A to Z."

INTERESTING STETSON FACTS

Over 5400 people are employed at the STETSON factory in Philadelphia where every part of the hat is made. Over 40,000 pounds of raw silk were converted into ribbon for hat bands and bindings last year. 367,000 deepskins were made into sweat bands. 850,000 pounds of fur were cut from 11,000,000 skins which were imported last year. Even the paper hat-boxes are made by STETSON—requiring over 903 tons of board last year. STETSON has an auditorium seating 6,000, lunch rooms and a hospital for their employees; also a Savings Bank. STETSON workers are happy workers—they like their work and take pride in the fact that STETSON Hats have won first prize at every World's fair where these world-famous hats have been exhibited.

Stetson Hats are widely distributed all over the world. Men in every clime, of every tongue and every station in life wear Stetsons—because Stetson makes the hat that is always dependable—that offers a selection wide enough to satisfy every man's taste.

There isn't an authentic style, in color, shape, weight or finish that isn't presented first and best in a Stetson.

And you'll find the widest selection and most expert help in choosing at our store.

Market Street

Clearfield, Pa.

News of : Our Neighbors

CURWENSVILLE

What might have terminated in a fatal accident occurred on State street, opposite the Park hotel Sunday afternoon about two o'clock. A bunch of motor cyclists from Clearfield were on their way home. The leader after crossing Filbert street turned around in his seat to ascertain if the others of the company were in sight. His machine swerved to the right and banged into automobile No. 888 607 which was parked there. The motor cycle struck with force and injured the lady passenger somewhat. Some damage was done to the auto while the frame of the cycle was badly bent. The number of the motor cycle was 17081. With the assistance of his companions the damaged machine was put into shape so that the trip could be made down the river. The auto was owned by a man from Olanta.

A portable saw mill is being set up in the north end of Filbert street by Shirey, the Clearfield lumberman, who purchased the Irwin timber on the hill on right of the road. The Greenwood Lumber Company which purchased the standing timber of Ketter & Bailey, out on the barrens, is putting up a mill on the site of the one burned down recently. The logs have all been cut, the bark peeled on this tract and the sawing out will be commenced just as soon as the mill is put in condition to handle the logs.

Drayman John Kelly is carrying his right arm in a support all on account of a sma hed and broken thumb. He attempted to shut a door of a car when the tain bucked and caught his thumb before he had time to withdraw his arm from the danger zone.

Yesterday was the time set for the sale of those Pike township road bonds. The amount wanted was \$25,000, the paper bearing a six per cent interest. There was but one bidder. The Curwensville National Bank, which secured the bonds.

Kantar & Sons formerly opened their store in the new location east of the Bank block last Saturday. A large number of our citizens called during the day and evening inspected the new quarters and returned home each with a purchase of some kind or other.

Miss Genevieve Goodwin, who spent several weeks in this place with relative returned to her home in Philadelphia on Sunday.

The lodge of Protected Home Circle held a profitable and interesting session in Red Men's Hall last Friday evening. Miss DeRusse, the district deputy was present and made an instructive address on the minor points of the organization. After the business session ended refreshments were served.

To say that Ilimi Tribe of Red Men is progressive is putting it rather mildly. Their new home on the third floor of the Bilger block has been remodeled and fixed up in a manner makes the Indians utter war whoops or pleasure. Within the past week a raider set has been installed and now the members are connected with the outside world generally. The membership is constantly growing and by the end of the year ought to have the largest membership of any fraternal lodge in the county.

The writer has been asked time and again who the persons are who have been selected to teach school in this borough for the period embracing the incoming school term. Through the courtesy of Prof. Grant Norris, the acting principal, we are able to give the corps of instructors (or rectly Teachers Grant Norris, supervising principal, Curwensville, George P. Croyle assistant principal, Bedford Pa. South Side building; Mildred F. Tate, Duncanville, Ethel Hummel, Clearfield Inez Redden, Mahaffey, Ruth Murray, Grampian, Pearl Zeller (amex) Youngstown, Pa. Locust street building; Marian Snyder, Curwensville, Emma Stoltz, Martinburg, Pa., Elizabeth Whitaker and Bernice LaBoide Curwensville Patton building; Olive M. (180 school days) in the Junior High and Senior High. On Monday, September 4th, at 1 o'clock a meeting of directors and teachers will be held in the High School Study Hall. It is to be hoped and expected that every director and every teacher will be present at this meeting. The buildings have been thoroughly renovated and repaired making the rooms a pleasant place for both pupil and student.

Earl McFadden, superintendent of clay mines at Bordman was in town Saturday and informs the correspondent that business in that bustling village is on the mend and that wages have been advanced along, and lines of labor both mechanical and common.

Reuben Bonall living in Iml City road a short distance from this place is building a commodious addition to his home. When the carpenter and plasterer gets through the house will be heated and water put in throughout.

The Fastburn combination of the Roaring Run quarry in that town. Father Wm. Croyle, pas-

ed in a complete set on the planting ceremony. The young couple have many friends in this and other towns who will wish them unalloyed happiness as they cruise over the sea of life hand in hand. The groom is a son of Crosby Hayes, the Bridgeport miller.

Painters have been engaged the last few days back in treating the N. Y. C. R. R. bridge below town to a fresh covering of weather paint.

Most of the industries were handicapped yesterday morning, by not having full crew of men. A great many miners had been employed at the different plants who failed to respond to the morning whistle, having made arrangements to enter the mines.

Mr. W. M. Hoover, of near Harrisburg is the guest friends this week. This Hoover family were former residents of this place. Mr. Hoover became the man who was shot in the face when an attempt was made to rob the Curwensville bank by a man named Downing.

Edwin Hayes, of this place and Miss Dora Woods, of Grampian, were quietly married last Thursday in that town. Father Wm. Croyle, pas-

tor of the Catholic church performing the ceremony. The young couple have many friends in this and other towns who will wish them unalloyed happiness as they cruise over the sea of life hand in hand. The groom is a son of Crosby Hayes, the Bridgeport miller.

Miss Ralph Johnson, Grampian road, has been confined to her home the past few days suffering from a severe attack of pleurisy.

KEEPING YOURSELF FIT FOR THE WEATHER

It takes a lot to keep abreast of the changes the weatherman is handing out these days and you'll need all the bodily resistance that you can muster.

Our tonics,—we have several of them—will build up your resistance so that you can stand these changes in better shape than you could do otherwise.

Aughinbaugh's

BUILD UP THE KIDDIES FOR THEIR START TO SCHOOL

The kiddies will soon start to school and you'll want them to start right out with the beginning of the term and keep their studies up to the top.

They can do this if you will build up their little bodies and brains from a physical standpoint. It takes stamina to go thru the school year and there's no better thing to build up this stamina than the milk that we are serving to your home.

Let the kiddies have plenty of it and they will show you how to go ahead in their school work if they're in the proper physical shape.

200 AT HORSE SHOE GAME

About two hundred people gathered around at the Machine shop court last night to see the visiting pitcher, Johnson, play the local experts. Considering his fame and prowess, the results were satisfactory. Official games and scores are:

	P	D	S	C
Johnson	50	1	9	1
Hudson	11	0	2	1
Johnson	41	0	5	2
Smith	50	3	7	2
Johnson	50	4	8	6
Smith	50	1	6	6
Johnson	50	1	9	1
Smith	13	0	2	1

Very few teams feel interested in another series, but those who enrolled are really in for it, so the new schedule will be published, shortly, and start playing about next Monday. If any others have a sudden inspiration to get in line, call Community Service at the High School and we will fix you up.

Don't forget the party at Reeds-ville playground tonight.

HUMMEL-WILSON

At the residence of the bride's mother, Mrs. C. G. Wilson on Sixth street, August 28th, at 10:30 a. m., Daniel W. Hummel and Helen E. Wilson were united in the bonds of matrimony by the groom's father, Rev. B. J. Hummel. The beautiful ring ceremony was used to seal their vows. Immediately after the ceremony the happy couple left for a trip to the West, where they will spend their honeymoon. After their return they will make their home in Clearfield.

Characteristics of Famous Men.

When I meet a famous man I note that all he has is a little sense, a little politeness and a disposition to look after things. Many famous men are very ordinary, except that they are unusual in the respects noted.—E. W. Howe's Monthly.

CHILEAN PASSENGER LINER SINKS, 240 DROWNED

OVERLADEN SHIP LOSES BATTLE WITH
HEAVY SEA; ALL ON BOARD ARE LOST

SANTIAGO, Chile, August 29.—Two hundred and forty persons were drowned today when the Chilean passenger steamer Itala sank off the Choros Islands near Coquimbo. It is believed that the sinking of the ship was due to its overladen condition in the heavy seas. It is believed that all the passengers and members of the crew were lost, according to a report from the steamer Chapacuco to the steamship offices here.

TEST OF RAILROADS' ABILITY TO MOVE COAL IS NEARING

Washington, D. C., Aug. 29.—Warned by Secretary of Commerce Hoover that the railroads cannot move the country's requirements of 13,000,000 tons of coal weekly, plans were started for insuring domestic consumers against suffering and industries against shut-downs. Due to the exhaustion of coal reserves, the country is now on a hand to mouth basis. Domestic and industrial requirements can now be taken care of as far as the production of coal is concerned, but the serious feature at this time is the uncertainty as to whether the railroads can haul sufficient coal to prevent suffering and tie-up of business. The test will come within the next two weeks, Hoover said. While he refused to discuss what action the Federal Government will take, it was indicated in addition to giving coal every possible priority on the railroads a coal zoning system may be established by which no coal will be shipped from one State into another coal-producing State.

HARDING WANTS THE AUTHORITY TO ACT IF ACTION IS NEEDED

Washington, D. C., Aug. 29.—President Harding wants legislation passed before Congress adjourns or recesses giving him power to seize the anthracite mines and railroads in order that he may have adequate authority to protect public interests, it was officially stated at the White House today. It was emphasized that the President had no thought of taking over any mines or railroads in the near future and that no such action would be taken except as a last resort.

"HY" JOHNSON IS UP FOR RENOMINATION AT PRIMARY TODAY

San Francisco, Cal., Aug. 29.—California went to the polls today to select candidates for the Senate, and other State and county officials. Chief interest centered in the fight between Senator Hiram Johnson and Charles C. Moore for the nomination for the Senate. Moore and his supporters vehemently attacked Johnson for his stand on international matters and as a side issue attempted to show that he was a representative and mouthpiece of William Randolph Hearst. Johnson answered them with the slogan that it is the same old gang trying to keep the people from controlling the Government.

BLUE BALL MINER KILLED BY ROCK FALL

William McKeown, son of the late James McKeown, and a former resident of Penn township and Grampian was instantly killed by a fall of rock while at work in a coal mine owned by Philipsburg people near Blue Ball about 2 o'clock yesterday afternoon. The deceased was aged 52 years and is survived by two sons, residing at Blue Ball. The funeral will be held from his late home at Blue Ball Thursday, with interment at Philipsburg.

FIND "DEATH POOL" IN MISSOURI RIVER

Bonus Measure Will Be Put Through Senate At Evening Session

Washington, D. C., Aug. 29.—Another delay on the final vote on the Bonus Bill was in sight as the Senate resumed discussion of the measure today. A strenuous effort will be made to push it through, however, even if a night session of the Senate is necessary, so as to get it out of the way for pending strike legislation. The gag rule on discussion of amendments was in effect today but there was no limit of time the Senators could talk on the Bill. The time allowed for discussion of amendments was limited to twenty minutes.

Boal Troop To Hold Big Reunion Saturday And Sunday, Sept. 2 And 3

A reunion of the Boal Troop veterans of the world war will be held Saturday and Sunday, Sept. 2nd and 3rd, at Boalsburg, Pa. The Boal troop was organized in 1916 for service on the Mexican border, where it served as machine gun troop, First Pennsylvania Cavalry. In 1917 this troop was called into service on July 15th, training at Boalsburg, Pa., and Camp Hancock, Augusta, Ga., as M. G. T. First Pennsylvania Cavalry. At Camp Hancock on the disbanding of the cavalry regiment, they were transferred to division headquarters and designated Co. A, 107th M. G. Bn., of the division machine gun battalion. With this designation they served with the 28th Division at Camp Hancock and over seas from April, 1918 to May, 1919 as members of the A. S. F.

Mustered out of Federal service May 21st, 1919. Labor Day, 1919, dedicated a monument to their fallen comrades at Boalsburg, Pa.

May 14, 1922, founded veterans' organization known as Boal Machine Gun Troop, for the purpose of promoting comradeship and help one another in battles of civil life. Also to hold an annual reunion. Officers of the organization are: Honorary president, Lt. Col. Theo. D. Boal, Boalsburg; president, W. W. Barratt, Clearfield, Pa.; secretary, D. W. Hummel, Clearfield, Pa.; treasurer, R. K. Jacobs, Philipsburg, Pa. Vice presidents and members of the executive committee elected from the following towns have members in the troop: Bellefonte, State College, Lock Haven, Milroy, Altoona, and Clearfield, Pa.

Starting with all Pennsylvania boys, this outfit had replacements from nearly all States in the Union and this being the first official reunion men from all over the country are expected to attend.

Program for two days includes athletic contests, shooting contests, reunion and business meeting, dance. (Continued on Page 4)

LABOR BOARD WILL STICK TO LAW IN MAKING ALL AWARDS

Chicago, Ill., Aug. 29.—Maintenance of way men lost the first skirmish in their fight for increased wages when the Railroad Labor Board today denied the living wage as the basis for fixing a new wage scale. The Board will not go beyond the Transportation Act the decision declared. If we find that the living wage is a just and reasonable wage as prescribed by the law we will adopt it. It would be superfluous to announce in advance the theory on which the wage will be fixed. We will give every consideration to the arguments of the maintenance men but we must comply with the law, the decision stated.

DEATH WINNING A DESPERATE BATTLE IN MINE ACCIDENT

Practically No Hope Is Entertained that Hard Working Rescue Crews Can Save Victims.

43 MEN ENTOMBED

Argonaut Gold Mine, Jackson, Cal., Aug. 29.—Death was winning a desperate battle here today for the lives of 43 men entombed nearly a mile below the surface. Dawn lit up the pale faces of the worried rescue crews who had toiled throughout the night, but brought little hope that the men could be saved.

Seated on cars near the opening of the shaft, a pathetic little group of the wives and families of the imprisoned men watched proceedings which continually grew more hopeless. It was discovered that the men had struggled to a level where they were able to get a little more air, but it was deemed impossible to save them.

Freeport Thick Vein Operators Capitulate On Cleveland Scale

The Coal Operators' Association of the Thick Vein Seam of the Freeport district capitulated to the United Mine Workers of America yesterday, signing the Cleveland joint conference agreement of August 15, and bringing to a close the 150-day strike in the mines of these operators.

A. R. Budd of the Diamond Coal and Coke Company, was chairman of the association committee that negotiated this settlement with P. T. Fagan, acting president, and William Hargest, secretary treasurer of District No. 5, representing the miners.

The total annual tonnage involved approximates 3,700,000 tons figured upon production of 1920. About 4,500 union miners will return to work in this district, which is virtually all within Allegheny county.

Opening Of Mines Indicates Steel Production Normal

Pittsburgh, Pa., Aug. 28.—Normal production of steel within a month was predicted here today following reopening of coal mines owned by steel interests in the Pittsburgh district. Steel plants took on more men with assurances of steady supplies of coal and coke. Blast and open-hearth furnaces, the barometers of the steel industry, were to resume this week. Jones & Laughlin and other independents reopened their mines at Vestaburg, Dunkirk and Ellsworth, signing the Cleveland conference agreement. Nearly 7000 miners returned to work. Representatives of the United States Steel Corp. here reported output of Frick coke and coke plants in non-union Connellsville fields was increasing steadily.

Emil Seelinger, one of the substantial citizens of Bigler township, is a juror this week.

Whence Alfalfa Came. Alfalfa is really a Spanish name for the Medicago Sativa, to give it its full botanical name. It is also known as Spanish trefol. It may be termed one of the pit timers on this continent as it was brought over to this country by the early Spaniards. It took very kindly to its new home and now is known and valued as fodder in many parts of Canada and the United States.

Pittsburg Salesman Dies Suddenly At Local Inn Last Evening At Eight

T. F. Johnston, of Crafton, Pa., aged about 60 years, sales manager for the Federal Enameling and Stamping Company, of Pittsburgh, dropped dead in his room at the Hotel Jordan about 8:30 o'clock last evening.

Mr. Johnston registered at the Jordan on Friday last. He was about the hotel Saturday and Sunday, but Monday morning he called the office about 9:30 o'clock and said he was sick and would like to have a doctor sent up to his room.

Dr. Yeane was summoned and found Mr. Johnston suffering from heart trouble and gave him some medicine. At noon Proprietor Jordan went to the room and Mr. Johnston told him he was feeling much better. Later in the day he arose and coming down stairs ate a light lunch.

About 7 o'clock Mr. Johnston went up to Dr. Yeane's office and the doctor found him very weak and told him he should be in bed. Johnston returned to the hotel and going to his room retired for the evening.

About 8:30 o'clock a guest of the hotel occupying an adjoining room heard a noise as of some one falling heavily to the floor in Mr. Johnston's room and at once notified the office. The clerk went to the door of the room, which he found locked and upon opening it, Mr. Johnston was found lying on the floor dead.

He was clad in his pajamas and had evidently retired for the night, and had apparently got up and approached the stove in his room to get a drink of water when stricken and fell to the floor dead.

Dr. Yeane was summoned and pronounced the man dead from an attack of heart trouble and the remains were removed to the Leavy undertaking parlors and prepared for burial.

PICNIC, HIKE AND CELEBRATION TO CLOSE PLAYGROUND

At five o'clock Wednesday evening there will be a picnic on the playground back of the High School for all the littles under nine. Mothers, PLEASE not only note this but see that your infants have a bit of lunch in a basket. This is the last week you know, and must be celebrated.

All Miss Beth's playground children over nine, or at least those who are husky enough for a good long hike, be ready for one Thursday afternoon at one o'clock at the High School playground. Bring your own supper—cooked or uncooked—and a bathing suit if the powers permit. There will be a campfire and if bacon or weiners are on the menu—very good. This isn't going to be a two or three block stroll, so don't come if you aren't good for a regular tramp.

WOMAN IS FOUND! CLINE DEFENSE IS BEING SHATTERED

Edgewater, N. J., Aug. 29.—Miss Alice Thornton, the blonde who was being sought in connection with the killing of John Bergen, was today questioned by the authorities and her story backed up by the theory of the prosecution that Bergen was shot without a chance for his life. According to prosecutor A. C. Hart, Miss Thornton said she did not hear Cline propose to Bergen that the two go up into the attic and fight it out after Bergen had admitted intimacy with Mrs. Cline.

FIND TWO VICTIMS, EACH LASHED TO STEERING WHEEL OF AUTOMOBILES

KANSAS CITY, Missouri, August 29.—The swirling, muddy depths of the Missouri River were expected to reveal the body of a man lashed to the wheel of a motor car which lies at the bottom of an eighteen foot eddy at Nearman, near here. Wyandotte County officials assert that at least a dozen other automobiles are on the river bottom at this point and they fear when they are brought to the surface that the bodies of other victims will also be recovered.

FIND SECOND VICTIM.

Kansas City, Missouri, August 29.—A second body has been discovered in the "bandits' grave yard" of sunken automobiles at Nearman, under-sheriff Kepler, of Wyandotte County, telephoned police here today. Both bodies were lashed to the steering wheels of submerged machines. Divers and workmen working to raise the automobiles said to be on the river bottom discovered the second corpse, according to Kepler. One of the dead men was thought to be white and the other a negro. It is thought by those engaged in the work that there are at least two dead men and probably more. Kepler discounted the possibility that two different crews might have seen the same body. A crowd of curious spectators numbering about 2,000 lined the river banks near the submerged cars.

DODGE TRUCK WITH LOAD OF MEAT HITS TELEPHONE POLE

A Dodge truck loaded with fresh meat from the Philipsburg Beef Company and driven by a young man named Rougeux, from Frenchville, collided with a telephone pole on the Woodland-Clearfield road, just this side of the watering trough at Barrett last yesterday afternoon.

Rougeux and a companion had been to Philipsburg for a load of meat and were returning home via Clearfield when the accident occurred. The truck had just rounded the curve at the foot of Barrett hill when something went wrong with the steering gear, and before the driver could stop his machine it piled head-on into the telephone pole. The truck was badly damaged but neither of the occupants was hurt.

CAUGHT IN ROCK FALL

Clair Young, aged about 24 years, was caught by a fall of rock in the A. E. Woolridge mine near Woodland about 10 o'clock and quite badly injured.

The rock struck the young man on the back. Dr. Shively ministered to his injuries and had him brought to the Clearfield Hospital where the extent of his injuries will be determined by an X-ray examination.

CURWENSVILLE MISS CHAMPION EEL FISHER OF CENTRAL PENNSYLVANIA

Miss Blanche Kelly, of Curwensville, is the champion fisherman or fisherwoman—if you want to get technical—in Clearfield county and was awarded the cheese-handled barlow by unanimous consent after an achievement which she pulled off this morning. Miss Kelly was one of a party of Curwensville young ladies who went down to Anderson creek to have their pinky toes in the cooling waters of that mountain stream. When they reached the bank of the stream the front rank of girls refused positively to risk a single toe in the water when they saw, what was generally accepted as a huge water snake disporting itself in a turgid pool just off shore. Miss Kelly comes of a family of hunters and fishermen and "had to be shown" before she would run away from any thing that swam in the waters of An-

derson creek. While the other girls kept away from the Creek Miss Kelly pressed forward to get a glimpse of the monster which had frightened her companions.

What she saw didn't appear to scare her a little bit and she hopped right into that pool after the "water snake" with the screams of her fair companions ringing in her ears. She went right after the "snake" and soon ran it into a pocket and like the expert fisherman she is Miss Kelly got her hands full of wet sand and after considerable effort succeeded in throwing a 3-1/2 foot eel out onto the bank, and while the other girls beat a hasty retreat the plucky young lady proceeded to put her catch out of business. A whack on the head with a vanity box soon put the eel out of business and the fair fisherlady soon was on her way up town triumphantly carrying her catch.

VIRGINIA CHOCOLATE SHOP

ODDS AND ENDS AND THINGS

By J. D. C.

The last toll gate and toll bridge in Clearfield county has long since been wiped off the map by the progress of the times, but a lot of people in Clearfield will remember the day when one had to pay for getting in or out of the town on any one of three separate routes. The toll gate and toll bridge was the pioneers' way of paying for public improvements.

In moving his office in the Betts homestead recently John M. Bain unearthed the old minute book of the Lower Bridge Co., the organization which erected the Lower or Second street bridge, which was maintained as a toll bridge as late as 1880, when the stockholders sold it to the County Commissioners and it became a free county bridge.

The first entry in the book was made under date of June 1, 1868, and on Saturday, September 2nd. The speakers will be Hon. Singleton Bell, Col. Fred Kerr, Rev. E. Roy Hauser, J. Frank Snyder, A. R. Chase and W. A. Hargerty, Esqs., and Hon. Joseph E. Phillips. Everybody invited to attend. 8/22-25-29 9/1

ROWLES REUNION
SATURDAY, SEPT. 2ND
The Rowles family reunion will be held in Cathart's Grove at Olanita.

Great Healer For Sores, Cuts, Scalds, Burns and Bruises

Great Antiseptic Ointment Called San Cura that Your Local Druggist Sells on Money-back Plan.

"Arm badly scalded with steam," writes Gilbert Hard of Rinard's Mills, Ohio; "San Cura Ointment relieved the pain at once and arm healed rapidly. It is a wonderful ointment."

Here's another: Ellis W. Frankenstein, Titusville, Pa., broke his leg; was in bed six months; discharged from hospital as incurable; was five years on crutches, while opening in leg continued to discharge pus; suffered terrible pains; San Cura Ointment drew out poisonous pus and many pieces of bone; now perfectly healthy; sore healed, and weight increased from 86 to 121 pounds.

San Cura Ointment is such a marvelous healing antiseptic ointment that it is sold on money-back plan.

It relieves itching skin, tetter, eczema, salt rheum, old running and fever sores, ulcers, boils, carbuncles, sore nipples, piles, frost-bite, chilblains, catarrh and chapped skin.

San Cura Ointment—35c, 65c and \$1.25 at all Drug Stores.

signed by J. Blake Walters, Secretary. It recites that on this date "Oscar B. Merrill, W. D. Bigler and J. Blake Walters, the original incorporators named in the Act of Assembly, approved the 13th of April, 1868, incorporating the Lower Bridge Company met at the office of Wallace Bigler & Fielding and in accordance with the provisions of said Act of Assembly selected Wm. W. Betts and Abe Humphrey to act with them as Directors of the said Company.

On June 9th, 1868, a contract for the piers for the bridge was made with Michael Hubert, who was to do the stone work for \$1,650 per perch.

June 16, 1868, O. B. Merrill was elected President; J. Blake Walters, Secretary and W. D. Bigler, Treasurer, and bids for the woodwork asked for.

The stone work was completed and settlement made with the contractor on November 10, 1868, he being allowed \$296.90 for extras. The contract for the woodwork was given to W. H. Miller for \$2850 on April 21, 1869, he to furnish the "iron, nails and false work." He had his work completed October 29, 1869.

On May 11, 1870, the books showed the outstanding indebtedness of the bridge company to be \$7557.20 and an issue of bonds, not to exceed \$10,000 and bearing not more than 10 per cent interest was authorized to take up same.

On April 25, 1875, the minutes recorded the following action.

"A meeting of the Directors and stockholders of the Lower Bridge Company was held at the office of Wallace & Krebs the following were present: James Irwin, Richard Shaw, Wm. L. Rishel, J. S. Schryver, R. A. Green, W. M. Shaw and A. P. Moore.

When the following board of Directors were elected: James Irwin, Richard Shaw, W. D. Bigler, J. C. Schryver and Wm. L. Rishel. On Motion resolved that all persons having paid up stock in the Bridge shall pay 5 cents for all loads hauled on said bridge and have the privilege of passing back on their stock. And all persons taking the bridge by the year shall pay 8 cents per load for all loads so hauled over said bridge and have the privilege of passing back free. And all persons hauling over said Bridge that have no stock in said bridge and do not take the bridge by the year shall pay the sum of ten cents per load, each way.

Resolved that any person hauling over said bridge, whether stockholder or having the Bridge by the year pay for all loads hauled over said bridge by the trip at the prices above mentioned. And all loads so hauled be settled for at the end of each month.

Resolved, that the certificate issued to Richard Shaw, Jr., for the use of the Grist Mill shall be null and void from this date.

Resolved, that thirty days shall be given to all persons in arrears for toll and all toll outstanding after that date shall be placed in the hands of the Justice of the Peace for collection, and that the same length of time be given to persons intending to take out their certificate for 1876, and all certificates not lifted in that time. The gate keeper is instructed to shut the gate on persons so crossing or they shall pay their toll by the trip. And that notice be given in the paper of the above resolution.

Motion James Irwin was elected President and W. M. Shaw was elected Sec'y and Treasurer.

On motion adjourned.

W. M. SHAW, Secy
(To Be Continued Tomorrow.)

ATTENDING NEPHEW'S FUNERAL

Mr. and Mrs. Edward L. Boyle, of Dorey street, left today for Pittsburg, where they were called to attend the funeral of James Armstrong, their nephew, who dropped dead on the streets at Pittsburg yesterday.

Young Armstrong, who was a son of the late William Armstrong of Phillipsburg and Patton, was attending U. S. vocational training school at the time of his death. He served with the A. E. F. and was seriously gassed during the war and his sudden death was directly attributable to that fact.

ing again in the morning. There was nothing to be done, he had said; just watch her.

Watch her? How long had he been standing at the foot of the huge bed—the biggest bed he had ever seen—and what was there to watch? "Sinking," the doctor had said. In process here before his eyes, but not to be seen by them, awful and mysterious things. Death with practiced fingers about his awful and mysterious surgery of separating the spirit from the flesh, the soul from the body, the incorruptible from the corruptible.

But Young Perch was dead. Young Perch was killed. It was real. He was here. This war!

He felt very cold. He moved from the bed and replenished the fire and crouched beside it.

There was some strange sound in the room. He had dozed in a chair. Some strange sound, or had he imagined it? He sat up tensely and listened. It was her breathing, a harsh and labored sound. He stepped quickly to the bed and looked and then ran into the passage and called loudly, "Effie! Effie!"

Frightening, terrible, agonizing. He was kneeling on one side of the bed, Effie at the other. The extreme moment was come to her that lay between them. She was moaning. He bowed his face into his hands. The sound of her moaning was terrible to him. That inhabitant of this her body had done its preparations and now stood at the door in the darkness, very frightened. It wanted to go back. It had been very accustomed to being here. It could not go back. It did not want to shut the door. The door was shutting. It stood and shrank and whimpered there.

Oh, terrible! Beyond endurance, agonizing. It was old Mrs. Perch that stood there whimpering, shrieking, upon the threshold of that huge abyss, wide as space, dark as night. It was not spirit. It was just that very feeble Mrs. Perch with her fumbling hands and her moving lips. Look here, Young Perch would never allow her even to cross a road without him! How in pity was she to take this frightful step? He twisted up all his emotions into an appeal of tremendous intensity.

"Young Perch! Come here! Your mother! Young Perch, come here!"

Telling it, once, to Nona, he said, "I don't know what happened. They talk about self-hypnotism. Perhaps it was that. I know I made a most frightful effort saying 'Young Perch.' I had to. I could see her—that poor terrified thing. Something had to be done. Someone had to go to her. I said it like in a nightmare, bursting to get out of it, 'Young Perch. Come here.' Anyway, there it is, Nona. I heard them. It was imagination, of course. But I heard them."

He heard, "Now then, Mother! Don't be frightened. Here I am, Mother. Come on, Mother. One step, Mother. Only one. I can't reach you. You must take just one step. Look, Mother, here's my hand. Can't you see my hand?"

"Now, Mother, I tell you it isn't. Do just trust me. Do just come."

"I daren't, Freddie. I can't, Freddie. I can't, I can't."

"You must, Mother, you must. Look, look, here I am. It's I, Freddie. Don't cry, Mother. Just trust yourself entirely to me. You know how you always can trust me. Look, here's my hand. Just one tiny step and you will touch it. I know you feel ill, darling Mother. You won't any, any more, once you touch my hand. But I can't come any nearer, dearest. You must. You—Ah, brave, beloved Mother—now!"

He heard Effie's voice, "Oh, she's dead! She's dead!"

Dead? He stared upon her dead face. Where was gone that mask? Whence had come this glory? That inhabitant of this her body, in act of going had looked back, and its look had done this thing. It had closed the door upon a ruined house, and looked, and left a temple. It had departed from beneath a mask, and looked, and that which had been masked now was beautified.

Young Perch!

Continued In Our Next Issue

came. The evening before the last day of the Old Year was to have given Sabre a rare pleasure to which he had been immensely looking forward. He was to have spent it with Mr. Fergus. The old chess and acrobatic evenings hardly ever happened now. It was to have been a real long evening; but it proved not very long.

At ten o'clock profound gymnastics of the mind in search of a hidden word beginning with e and ending with i were interrupted by the entry of the maid. "Please, Mr. Sabre, I think it's for you, Mr. Sabre."

"For me? Who on earth—?"

He opened it. He did not recognize the writing on the envelope. He unfolded it. Ah!

"Freddie's killed. Please do come at once. I think she's dying.—E. B."

CHAPTER VII

HE was alone in the room where Mrs. Perch lay—not even Effie. One o'clock. This war! The doctor had been and was com-

ing again in the morning. There was nothing to be done, he had said; just watch her.

Watch her? How long had he been standing at the foot of the huge bed—the biggest bed he had ever seen—and what was there to watch? "Sinking," the doctor had said. In process here before his eyes, but not to be seen by them, awful and mysterious things. Death with practiced fingers about his awful and mysterious surgery of separating the spirit from the flesh, the soul from the body, the incorruptible from the corruptible.

But Young Perch was dead. Young Perch was killed. It was real. He was here. This war!

He felt very cold. He moved from the bed and replenished the fire and crouched beside it.

There was some strange sound in the room. He had dozed in a chair. Some strange sound, or had he imagined it? He sat up tensely and listened. It was her breathing, a harsh and labored sound. He stepped quickly to the bed and looked and then ran into the passage and called loudly, "Effie! Effie!"

Frightening, terrible, agonizing. He was kneeling on one side of the bed, Effie at the other. The extreme moment was come to her that lay between them. She was moaning. He bowed his face into his hands. The sound of her moaning was terrible to him. That inhabitant of this her body had done its preparations and now stood at the door in the darkness, very frightened. It wanted to go back. It had been very accustomed to being here. It could not go back. It did not want to shut the door. The door was shutting. It stood and shrank and whimpered there.

Oh, terrible! Beyond endurance, agonizing. It was old Mrs. Perch that stood there whimpering, shrieking, upon the threshold of that huge abyss, wide as space, dark as night. It was not spirit. It was just that very feeble Mrs. Perch with her fumbling hands and her moving lips

All-Around Source of Supply.
Nothing was wasted by the early hunters and the natives of Alaska as they were taking the big sea about the Pribilof islands. The t was dried and saved for food, skins used as covering for the tents, intestines were made into garts, its stomach was used as a ch for oil and the long whiskers e sold to the Chinese as pickers opium pipes.

Power of the Sun's Rays.
The sun's radiant energy has been ated as being equal to that which id be required to pump from the an enough water to supply a Na- a 75,000 miles wide. To equal the rgy which the earth receives from sun would call for a row of Nin- as encircling the earth three times. Every foot-pound of energy util l in electric horse power.

Collins' Fiancee

Author's Sound Advice.

It is a familiar custom for an author of some merit but little fame to get a more celebrated colleague to introduce his book. The custom is sometimes run into the ground. Such an author applied to Mr. Remond Shaw for a picture. Shaw replied: "Swim on your own; don't trust corks."

When Criminals Were Branded.
Up to the year 1820, all criminals in England were branded, as well as gypsies and vagabonds, but after that year only deserters from the army and soldiers who were notoriously bad characters were so marked.

Great Power Given Congress.
The Constitution gives congress power to raise and support armies. Power to support an army includes everything connected with arming, clothing, equipping, mobilizing, transporting and feeding it.

Take Another Path of Thought.
When you find yourself beginning to think things that you know perfectly well are unkind and uncharitable—don't. Pull yourself up short and resolutely turn your thoughts to other and pleasanter things.—Grace H. Dodge.

Rule That Must Be Observed.
In vain do we talk of progress and superior light if we have not yet learned the elementary rules by which men of sense, having a certain end in view, adapt their means to the attainment of that end.—W. B. Gladstone.

Hay Fever Relief

May be Had Right at Home

WHILE there is no certain "cure" for hay fever, Vicks in many cases will give relief. As a preventive, keep Vicks up the nostrils, especially when exposed to dust.

To clear the head, melt Vicks in a spoon or tea kettle and inhale the vapors.

For relief during a night attack, rub Vicks over the spinal column from the neck to the hips. Then apply over throat and chest and cover with hot flannel cloth.

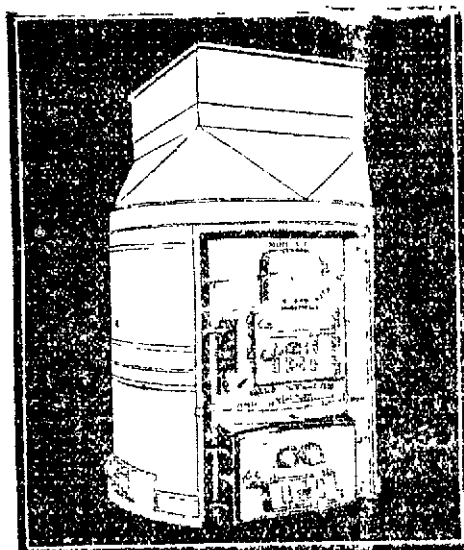

Leave the bed covering arranged in the form of a tunnel so that the vapors arising may be freely inhaled.

The Susquehanna College of Music Opens Monday

The Seventeenth Year of This Musical Institution Opens

On Monday, September Fourth. Pupils Should Register Now.

The pupils of the Susquehanna College of Music have gone forth into the musical world of the country and have made their mark. This is a brilliant proof that the methods used and that the thoroughness of instruction place the institution among the leading institutions of the country.

Voice

The pupil is taken by easy degrees through the instruction of tone formation and finally finishes with the study of the great singing parts of the operas and oratorios. Not only is tonal quality brought out but stress is laid on clarity of enunciation.

Piano

We take pupils in this department from five years of age up. They are started with the easy exercises that will train their little fingers and they are taught the various things that instill not only an ability to play but a thorough understanding of music and a love therefor that will make for interest in their studies.

Violin, Violoncello, Orchestral Instruments

Pupils are taken into this department and taught the origin of the instruments and their technique. They are prepared for orchestra playing, concert work and parlor music. Every instrument used in an orchestra is taught here by instructors that teach by actual demonstration.

Cornet, Trombone, All Band Instruments

All band instruments, brass, reeds and the like are taught by instructors who have had many years experience in the work. The pupil is brought to efficiency in solo and ensemble and given a broad musicianship that enables them to accept positions in the best organizations of the country.

PUPILS SHOULD REGISTER NOW.

In order to get the lesson hours that will best suit your time, it is imperative for pupils to register early. The office of the principal is open every day and arrangements can be made for your entrance.

Entered in Post Office at Clearfield, Pa., as second class mail matter.

It is not unlikely that part of the lawlessness that is so prevalent throughout the United States may be traced to the attitude which boys and youths have been permitted to assume toward officers of the law. It is no longer an uncommon thing to hear policemen spoken of disrespectfully.

It is not claimed that the highest type of men can always be secured for places on the police force, but as a rule they are men who are interested in the welfare of the people as far as they are able to protect them and otherwise serve them. They are representatives of the law, and as such they are respected by law-abiding persons.

There is a disposition on the part of certain classes to "talk back" at a policeman or officer of the law—to make slurring remarks to others regarding them, or to commit acts of a taunting character. It is a practice that should be rendered unpopular by more severe penalties.

Persons of all ages should be impressed with the fact that policemen are employed to protect the interests of all by the enforcement of the regulations made for the welfare of the public. If discourtesy is shown to officers of the law the offenders should be taught a lesson that will be good for themselves and for others similarly disposed.

Consolation.

Little Joe's mother was the proud possessor of a new automobile, which she was burning to run with some difficulty. Watching her efforts to back the car out of the garage one day, Joe consolingly said, "Anyway, mother, you know how to work the self-starter fine, don't you?"

Had Felt Like Doing the Same.

"What was the gunpowder plot?" "Some Englishmen wanted to blow up their whole legislative body." "Well, I couldn't go that far. Still, I understand their point of view,"—Louisville Courier-Journal.

Right-Sightedness.

The assertion comes from France that the majority of people are not only right-handed but also right-sighted. By this is meant that most persons see better with the right eye than with the left and habitually, though unconsciously, employ it more. Some persons, however, make greater use of the left eye than of the right, and accordingly are said to be "left-eyed."

HELP BRING PROSPERITY TO THIS COMMUNITY

Keep your money working in this community—whether you spend, invest, or bank it. Then you will share in the benefits it brings. Trade with your fellow citizens and you will encourage them to do business with you. The money you save or make by doing business with one another, if deposited in this bank, will earn more money for you.

CLEARFIELD TRUST CO.
(Temporary Offices—Littman Bldg.)

Good in Various Vegetables.

Potatoes are said to improve the hair, which may account for the wonderful heads of hair in Ireland. Celery and lettuce are said for the nerves, and cucumbers and carrots affect the complexion beneficially.

Near the Dividing Line.

Robert was anxious to attend kindergarten with Billy, but he was not quite four years old. One day he went as a visitor, and before leaving he slipped up to the teacher and said, "Please, can't I come to your school? I'm just on the edge of four."

THE OLD HOME TOWN — By Stanley.

BOAL TROOPS

Continued from Page One

ing Saturday evening, mounted hike to hunting lodge of Col. Boal in mountains near Boalsburg, address by Col. Boal on "Recent Trip to Baldwinsville."

Arrangements are being made for sleeping quarters, cars, etc., that the men from Philadelphia, Pittsburgh and other distant places will be well taken care of.

Many local service men are members of this organization and will be in attendance.

—Try Our Business Printing Dept.—

Make Your Own BUG KILLER P. D. Q.

You can easily make at home a full quart of the strongest bug-killer for 35c, enough to kill millions of bedbugs, roaches, fleas and ants. This recipe will not burn, rot or stain clothing, and is entirely different from any other formula we know of, as this will kill the eggs.

Procure of your druggist a 35c package of (Toxley Devils Quiescent) P. D. Q., then you will have the chemical made necessary to kill fleas, roaches, bedbugs, etc., in hospitals and dwellings of public buildings and other insects.

Impossible for the pecky devils to exist with the proper use of P. D. Q.—makes five gallons.

Special Hospital size \$2.50—makes five gallons.

P. D. Q. can be purchased in sealed bottles, double strength, liquid form.

Sold by Woodward & McPherson

W. C. T. U. PICNICS

AT REGULAR MEETING

A regular meeting and picnic was held by the W. C. T. U. in the Clearfield Park as announced.

The election of officers took place, all being selected excepting the Vice President, Mrs. Clara McCord being elected to that office, and Mrs. Thornton Hill as Recording Secretary; Mrs. Ed. Stice having resigned.

Other business was taken up and transacted during which time Mrs. Edmiston and Miss LaRue Chorpensing read a number of important communications, one from the State Corresponding Secretary. During this time there was a notice of advertisement read which was from a man in Munich, and out to members of many manufacturing firms, a king to deposit to send \$2 and receive a donation in the shape of powder that they may manufacture intoxicating drinks of the various kinds, whiskey, beer, wine, etc. So here is another scheme to assist the law break

INSULATE AGAINST LOSS

Your heating system should be thoroughly insulated so that the heat generated will be delivered to the rooms where it is needed.

By having us insulate your heating system all loss of heat from boiler or piping will be negligible.

Let us show you the coal saving that can be made.

WILL ANSWER ANY WOMAN WHO WRITES

Woman Restored to Health by Lydia E. Pinkham's Vegetable Compound Makes This Offer

Cumberland, Md.—"My mother gave me Lydia E. Pinkham's Vegetable Compound when I was between thirteen and fourteen years old and was going to school, because I suffered with pains and could not rest. I did not have any more trouble after that until I was married, then I always was troubled in my back while carrying a child and could not do my work until I took the Vegetable Compound, and ironing and work for seven children and feel fine. I always have an easy time at childbirth and what it did for me it will do for other women. I am willing to answer any woman if she will write asking what it did for me." —Mrs. J. H. HEIER, 53 Dilleys St., Cumberland, Md.

During girlhood and later during motherhood Lydia E. Pinkham's Vegetable Compound brought relief to Mrs. Heier. Her case is but one of many we constantly publish recommending our Vegetable Compound. She is willing to answer your letter. Write to her.

\$1065

JUDGING from the present demand for Revere 30x3 1/2 Tires, every man who bought Reverses at \$10.90 this spring must have told at least five other motorists how downright economical they are.

Never since the first tire was made has there been such tire value offered to car owners.

A whole of a money's worth in this "12" Tread Revere at \$10.65. You'll say so, too.

WILLIAMS AUTO SALES CO.

Prices on Revere Passenger Car Tires and Tubes are not subject to local taxes. Tax, the tax having been absorbed by the manufacturer.

STETSON HAT EXHIBITION EXTRAORDINARY.

Interesting and Educational
Showing Different Stages in Hat-Making
One of the Greatest Hat Displays Ever Made

If you have never been through a hat factory you have no idea how interesting, how much there is to the making of a hat.

This wonderful exhibit presents the fourteen operations in the making of a Soft Hat—and the sixteen operations on a Stiff Hat. It shows how the elegant imported furs look before and after they are treated, and how the cut fur is made into felt—how a hat locks before it is shrunk, and afterwards—how it is blocked and shaped—the whole process from "A to Z."

INTERESTING STETSON FACTS

Over 5400 people are employed at the STETSON factory in Philadelphia where every part of the hat is made. Over 40,000 pounds of raw silk were converted into ribbon for hat bands and bindings last year. 367,000 deepskins were made into sweat bands. 850,000 pounds of fur were cut from 11,000,000 skins which were imported last year. Even the paper hat-boxes are made by STETSON—requiring over 903 tons of board last year. STETSON has an auditorium seating 6,000, lunch rooms and a hospital for their employees; also a Savings Bank. STETSON workers are happy workers—they like their work and take pride in the fact that STETSON Hats have won first prize at every World's fair where these world-famous hats have been exhibited.

Stetson Hats are widely distributed all over the world. Men in every clime, of every tongue and every station in life wear Stetsons—because Stetson makes the hat that is always dependable—that offers a selection wide enough to satisfy every man's taste.

There isn't an authentic style, in color, shape, weight or finish that isn't presented first and best in a Stetson.

And you'll find the widest selection and most expert help in choosing at our store.

Market Street

Clearfield, Pa.

News of: Our Neighbors

CURWENSVILLE

What might have terminated in a fatal accident occurred on State street, opposite the Park hotel Sunday afternoon about two o'clock. A bunch of motor cyclists from Clearfield were on their way home. The leader after crossing Filbert street turned around in his seat to ascertain if the others of the company were in sight. His machine swerved to the right and banged into automobile No. 888 607 which was parked there. The motor cycle struck with force and injured the lady passenger somewhat. Some damage was done to the auto while the frame of the cycle was badly bent. The number of the motor cycle was 17081. With the assistance of his companions the damaged machine was put into shape so that the trip could be made down the river. The auto was owned by a man from Olanta.

A portable saw mill is being set up in the north end of Filbert street by Shrey, the Clearfield lumberman, who purchased the Irwin timber on the hill on right of the road. The Greenwood Lumber Company which purchased the standing timber of Ketter & Bailey, out on the barrens, is putting up a mill on the site of the one burned down recently. The logs have all been cut, the bark peeled on this tract and the sawing out will be commenced just as soon as the mill is put in condition to handle the logs.

Drayman John Kelly is carrying his right arm in a support all on account of a sma hed and broken thumb. He attempted to shut a door of a car when the taing bucked and caught his thumb before he had time to withdraw his arm from the danger zone.

Yesterday was the time set for the sale of those Pike township road bonds. The amount wanted was \$25,000, the paper bearing a six per cent interest. There was but one bidder. The Curwensville National Bank, which secured the bonds.

Kantar & Sons formerly opened their store in the new location east of the Bank block last Saturday. A large number of our citizens called during the day and evening inspected the new quarters and returned home each with a purchase of some kind or other.

Miss Genevieve Goodwin, who spent several weeks in this place with relative returned to her home in Philadelphia on Sunday.

The lodge of Protected Home Circle held a profitable and interesting session in Red Men's Hall last Friday evening. Miss DeRusse, the district deputy was present and made an instructive address on the minor points of the organization. After the business session ended refreshments were served.

To say that Ilimi Tribe of Red Men is progressive is putting it rather mildly. Their new home on the third floor of the Bilger block has been remodeled and fixed up in a manner make the Indians utter war whoops or pleasure. Within the past week a raider set has been installed and now the members are connected with the outside world generally. The membership is constantly growing and by the end of the year ought to have the largest membership of any fraternal lodge in the county.

The writer has been asked time and again who the persons are who have been selected to teach school in this borough for the period embracing the incoming school term. Through the courtesy of Prof. Grant Norris, the acting principal, we are able to give the corps of instructors (or rectly Teachers Grant Norris, supervising principal, Curwensville, George P. Croyle assistant principal, Bedford Pa. South Side building; Mildred F. Tate, Duncanville, Ethel Hummel, Clearfield Inez Redden, Mahaffys, Ruth Murray, Grampian, Pearl Zeller (amex) Youngstown, Pa. Locust street building; Marian Snyder, Curwensville, Emma Stoltz, Martinburg, Pa., Elizabeth Whitaker and Bernice LaBoide Curwensville Patton building; Olive M. Amand DuBois, Ollie Moore, Grace Moore, Clearfield, Grace Kagarsie, New Enterprise Pa. Edna Mc Cricken Clearfield, John G. Halev, Grampian High School; George F. Croyle Bedford Pa.; Paul A. Zeller, Youngstown Pa.; Laura G. Walter, Fast Freedom, Pa. Fredda Colgrove, Clearfield. The schools will open on Tuesday September 5th, and will continue for a term of eight months (160 school days) in the elementary schools and for a term of nine months

VERY ECONOMICAL PRESCRIPTIONS

Irwin's Drug Store

(180 school days) in the Junior High and Senior High. On Monday, September 4th, at 1 o'clock a meeting of directors and teachers will be held in the High School Study Hall. It is to be hoped and expected that every director and every teacher will be present at this meeting. The buildings have been thoroughly renovated and repaired making the rooms a pleasant place for both pupil and student.

Earl McFadden, superintendent of clay mines at Bordman was in town Saturday and informs the correspondent that business in that bustling village is on the mend and that wages have been advanced along, and lines of labor both mechanical and common.

Reuben Bonill living in Iml City road a short distance from this place is building a commodious addition to his home. When the carpenter and plasterer gets through the house will be heated and water put in throughout.

The Fastburn combination of the Roaring Run quarry in that town. Father Wm. Croyle, pas-

ed in an impressive on the planting ceremony. The young couple have many friends in this and other towns who will wish them unalloyed happiness as they cruise over the sea of life hand in hand. The groom is a son of Crosby Hayes, the Bridgeport miller.

Painters have been engaged the last few days back in treating the N. Y. C. R. R. bridge below town to a rich covering of weather paint.

Most of the industries were handicapped yesterday morning, by not having full crew of men. A great many miners had been employed at the different plants who failed to respond to the morning whistle, having made arrangements to enter the mines.

Mr. W. M. Hoover, of near Harrisburg is the guest friends this week. This Hoover family were former residents of this place. Mr. Hoover became the man who was shot in the face when an attempt was made to rob the Curwensville bank by a man named Downing.

Edwin Hayes, of this place and Miss Dot Woods, of Grampian, were quietly married last Thursday in that town. Father Wm. Croyle, pas-

tor of the Catholic church performing the ceremony. The young couple have many friends in this and other towns who will wish them unalloyed happiness as they cruise over the sea of life hand in hand. The groom is a son of Crosby Hayes, the Bridgeport miller.

Miss Ralph Johnson, Grampian road, has been confined to her home the past few days suffering from a severe attack of pleurisy.
